About U.S. Database

U.S. Database is the leading provider of custom sales order entry software programs in the college bookstore industry. We have been providing consulting services for the leading vendors in the college bookstore industry since 1995. Companies like JanSport, The Cotton Exchange, Jones & Mitchell, MV Sport, League Collegiate Wear, My U, For the Glory, Nordic Company and Jardine Associates use OrderAll[®] software to increase sales and lower costs. Shouldn't you join them?

“Created by Sales Reps for Sales Reps in the College Bookstore Industry”

OrderAll Benefits:

- Use a PC to enter all sales orders for any vendor
- Eliminate paper order forms forever
- Write more orders with the exclusive OrderAll Inventory/Reorder Report
- Quickly and accurately enter sales orders
 - Saves account information
 - Saves styles, colors and sizes & unit prices
 - Easily add graphic/art to the order form
- Create reorders in a snap
- Calculates royalty if needed
- Sales orders e-mailed to vendors and buyers at the same time
- Monitor your sales by product, customer or vendor. Compare results to last year.

Database Technology

- OrderAll is written in FileMaker Pro, the award winning software famous for its ease of use.
- Each sales order is saved as a separate record for later retrieval for reorders or to run reports for past sales and inventory.

* Technical Support is available for \$99 per year.
